FROM ONE TRUE ORIGINAL TO ANOTHER, IT'S A FAMILY AFFAIR!

What's in your *core*?

The real values in life are those created and found within families; authenticity, trust and the opportunity given to be creative and express yourself. These same values drive our company and they define our corporate culture.

We saw an opportunity to create a better floor. We chased a dream and created a whole new category along the way. As the innovators of COREtec®, the Original, 100% waterproof floor, we did just that. Stylish, strong floors that sustain real family lives full of entertaining, kids and pets.

Click, lock, enjoy. It is as simple as that!

It all began as an entrepreneurial business in 2001, within our founder's heart and spare bedroom as our "headquarters". With the invention of COREtec®, the original, patented, 100% waterproof floor in 2013, we grew rapidly to become the leading brand of these unique and highly innovative products.

We launched our European division in 2016 and that same year were acquired and embraced into the family of Shaw Floors, an industry leader and subsidiary of Berkshire Hathaway, led by the world-renowned investor, Warren Buffett.

We've come a long way from where we started to where we are now. But those family values guide us still. Led by management and embraced by every employee, dealer, and partner, we are recognized as the problem-solvers, innovators and design enthusiasts. Today we offer an incredible range of resilient, durable floors that can be purchased, installed and lived upon in one single day. Click, lock, enjoy. It is as simple as that!

The most difficult task will be to choose from our wide variety of life-like decors. But don't worry, you are sure to find one to match your style because we have a floor for every personality.

Welcome to our family, we promise to remain authentic to the core.

Your COREtec® floor

always fits your style
& stands up to real life,
it's engineered for simplicity.

Always fits your style

We have a passion for providing a wide selection of authentic natural looks, so you can express what makes you, you. Persistent in product innovation – including micro-beveled edges, enhanced painted bevels & Embossed in Register technology – we create the most appealing designs & textures available.

Stands up to real life

Our floors are 100% waterproof, kid proof & pet proof. Try them in your kitchen or bathroom: they won't warp or buckle, even if submerged in water.

Our 100% waterproof core, resilient vinyl and protective wear layer will keep your floor looking good for the life of your home. So naturally, all COREtec® floors come with a limited lifetime residential warranty.

Is engineered for simplicity

COREtec® is easy to install, to care for and to live with. Its secure angle tap system doesn't require any glue or nails and can be installed over existing floors without additional underlayment.

Forget about sanding, polishing, sealing or refinishing: our floors are maintenance-free.

There's a million reasons to choose COREtec®, but here's our top 6.

Our floors:

- ✓ Are extremely stable
- ✓ Reduce noise
- ✓ Are wear resistant
- ✓ Do not need to acclimatise
- ✓ Are suitable for underfloor heating & cooling
- ✓ Install on any surface

Cork

The natural choice

All our floors have a unique attached cork underlayment. Why? It's warmer, quieter and easily installs over existing hard surfaces, perfectly concealing imperfections in subfloors. And: it's one of the most sustainable materials out there. Cork is harvested from the cork tree and can be re-harvested every decade without damaging the tree.

A natural solution that brings only benefits to your home or business:

-  Added sound insulation
-  A comfortable and warmer floor
-  A natural protection against mold and mildew
-  No need for separate underlayment
-  Absorbs subfloor imperfections

COREtec[®] floors are
that good, somebody else
can re-*enjoy* it.

At COREtec[®] Floors, we attach great importance to sustainability. Recycling our multilayer, multicomponent material has a high energy cost, which means that a circular solution with re-use of the flooring is more appropriate. That's why we come up with an environmentally friendly solution: to set up Second Life floors, based on infinite re-use, an approach which is unique in our sector.

As the architects of multilayer waterproof rigid flooring, we are the first manufacturers to set up a take-back service, giving used flooring a new lease of life. These Second Life floors will initially be offered to charitable bodies and youth organisations. Our new service also has a societal dimension, as the business we call on to clean the used flooring employs people with complex barriers to work. They will use specially developed ecologically friendly COREtec[®] products to clean the dismantled flooring, making the old flooring look as good as new.

Thanks to Second Life, your old floor gets a real second chance. And therefore you also contribute to a more sustainable world!

SOUND CORE®

Silent & strong, down to the *core*

At COREtec®, we're proud to offer the most complete collection of 100% waterproof floors, so you can express what makes you, you.

-  **100% waterproof**
-  **Extremely stable**
-  **No acclimatisation necessary**
-  **Easy to install**
-  **Installation on any surface**
-  **Reduces noise**
-  **Wear resistant**
-  **Pet proof**
-  **Electrostatic performance**
-  **Ideal for underfloor heating & cooling**

The charm of *nature*

With nature as our main source of inspiration, we succeeded in creating a floor that captures the essence of your home. Whether you prefer soft earth tones or warm darker colours, our wide selection of authentic looks provides the perfect solution for every interior. Make a strong statement by relying on nature.

The new COREtec[®] Essentials collection comes with inviting designs, natural textures and a touch of class.
